Summary

Full Stack Web Developer with a background in Manufacturing. Demonstrated strong problem solving skills when implementing new work processes and systems with self-taught skills. Positioned to solve complex problems by leveraging ability to create innovative solutions and self-start in fast and high pressure environments.

Technical Skills

Languages/Frameworks: JavaScript, HTML, CSS, Bootstrap, API, MySQL, MongoDB, Node, Express, React, Handlebars.js, Sequelize, Mongoose, Mocha/Chai

Applications: VSCode, Git, MySQL workbench, Robo 3t, Postman

Projects

AJS

Repo: github.com/Andrew846-dev/AJS

Site: ajs-mern.herokuapp.com

React app About JavaScript. Designed to smooth the learning process for beginner web developers. Uses syntax highlighting, changeable color scheme and a JavaScript parser

- Solo project
- Tools Used: MongoDB, Express, React, Node.js, passport, CodeMirror, Grommet.io, ESPrima, helmet.js, Mongoose

Schoolgle

Repo: github.com/Andrew836-dev/schoolgle/

Site: schoolgle.herokuapp.com/

An app to find school locations in South Australia. Search by school name, or postcode.

- Responsibilities: Most of the backend, finishing touches on the front end javascript.
- Tools Used: Node.js, Express, Handlebars.js, passport, Google Maps API, MySQL, jQuery, Materialize

Filterable User List

Repo: github.com/andrew836-dev/user-list

Site: andrew836-dev.github.io/user-list

React app that uses a random user API, search filters and custom pagination.

- Solo project
- Tools Used: Bootstrap, React

Experience

General Hand
Hardi Australia

2007-Current
Adelaide

- Upskill labor skills quickly to perform in new positions due to several restructurings, demonstrating adaptability and ability to learn on the go.
- Work collaboratively with different teams using excellent interpersonal and communication skills to meet production goals
- Design and implement first digital record keeping using self taught Visual Basic and Excel, resulting in more efficient part identification using a single application.

Education

Full Stack Development Coding Bootcamp - University of Adelaide

2020

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.
